E- Governance

User Guidelines

Login:

- Any type of user have to login first with their email address and password.
- After logging in they will be automatically redirected to their panel according to their user type.
- If email address or password is incorrect they will be notified.

Government:

- When you log in as the Government you will get a form for adding a new citizen.
- You must fulfill all the fields to save the information in database.
- Here the National ID of a citizen is created according to the information you give. As it is only a demo we have integrated it very briefly. The birth year of the citizen will be the first four digits of the ID. The next three digits represent his/her birth place code. The last three digits are for his/her serial number in this sequence.
- There is a search panel in right side of the page from where you can search any citizen's information from any institute.
- You can also Edit and Delete information.
- In this page there is always a field for searching for another citizen.

Educational Institute:

- When you log in as an Educational Institute you will get a form for adding educational information a citizen.
- Information contains National ID, Examination Name, Year, Board, CGPA.
- You must fulfill all the fields to save the information in database.
- There is a search panel in right side of the page from where you can search any citizen's educational information from any institute.
- In the page where search results are shown there is option for Edit and Delete information which are from only your institute.
- You can't edit or delete other institutes' information.
- In this page there is always a field for searching for another citizen.

Bank:

- When you log in as a Bank you will get a form for adding National ID of a citizen who is having any kind of financial relationship with your bank.
- Here any other information is not needed because Bangladesh Bank holds a CIB Report of every bank which contains all information of a bank. So we hope that national ID will be enough for government to get other additional information when needed.
- There is a search panel in right side of the page from where you can search any citizen's relation with all the banks.
- In the page where search results are shown there is option for Edit and Delete information which are from only your institute.
- In this page there is always a field for searching for another citizen.
